SUBPART A: RECOGNITION REQUIREMENTS

Section 1.10 Public School Accountability Framework

- a) Section 27-1 of the School Code [105 ILCS 5/27-1] establishes the primary purpose of schooling as the transmission of knowledge and culture in certain fundamental learning areas and requires the State Board of Education to define the knowledge and skills which the State expects students to master. These "State Goals for Learning" are set forth in Appendix D to this Part and amplified by the "Illinois Learning Standards", also set forth in that Appendix D. Further, Section 2-3.25 of the School Code [105 ILCS 5/2-3.25] requires that the State Board of Education establish general operational recognition standards for public schools, and Section 2-3.25a of the School Code [105 ILCS 5/2-3.25a] requires that the Board develop recognition standards for student performance and school improvement.
- b) Each school district shall ensure that each school makes available to all students instruction in the six fundamental learning areas, i.e., the language arts, mathematics, the biological and physical sciences, the social sciences, the fine arts, and physical development and health.

(Source: Amended at 31 Ill. Reg. 5116, effective March 16, 2007)

Section 1.20 Operational Requirements

- a) Districts' and schools' recognition status is based upon compliance with the requirements imposed by law, including but not limited to the recognition standards established by the State Board of Education pursuant to Section 2-3.25 of the School Code and this Part, as modified or waived, if applicable, pursuant to Section 2-3.25g of the School Code and Section 1.100 of this Part.
 - 1) No later than September 30 of each year, each school district shall apply for recognition of each school operated by the district. This application shall be submitted to the respective regional superintendent of schools through an electronic submission process established by the State Superintendent of Education, except that a district operated pursuant to Article 34 of the School Code [105 ILCS 5/Art. 34] shall submit its application directly to the State Superintendent.
 - 2) No later than October 15 of each year, each regional superintendent of schools shall summarize, through an electronic process established by the State Superintendent of Education, the degree to which the schools in the districts for which he or she is responsible adhere to operational compliance requirements. The regional superintendent shall recommend the assignment of recognition status as applicable considering the compliance-related information supplied.
 - 3) As part of this process, the regional superintendent of schools shall periodically visit the region's school districts as he or she may deem necessary to ascertain the degree to which the districts' schools comply with operational requirements.
- b) Based upon the information provided by the district and the regional superintendent, the State Superintendent shall prepare a certificate of recognition status for each school and for each district as a whole and shall transmit these certificates to all districts. In each case, the recognition status assigned shall be either "Fully Recognized", "On Probation", "Recognized Pending Further Review", or "Nonrecognized".
 - 1) Each school or district that meets the requirements imposed by law, including the requirements established by the State Board pursuant to Section 2-3.25 of the School Code and this Part, shall be fully recognized.
 - 2) A school or district shall be placed on probation if it:

- A) exhibits deficiencies that present a health hazard or a danger to students or staff;
 - B) fails to offer required coursework;
 - C) employs personnel who lack the required qualifications and who are not in the process of attaining such qualifications;
 - D) fails or refuses to serve students according to relevant legal and/or regulatory requirements; and/or
 - E) prolongs or repeats instances of noncompliance to a degree that indicates an intention not to comply with relevant requirements.
- 3) A school or district shall be recognized pending further review if it exhibits areas of noncompliance that:
- A) are not serious enough to warrant probation as delineated in subsection (b)(2) of this Section; and
 - B) may be corrected prior to the end of the school year following the school year in which they were identified.
- 4) A district shall be recognized pending further review whenever one or more of the district's schools are first removed from full recognition, whether recognized pending further review or placed on probation. The district shall subsequently be placed on probation if the instances of noncompliance cited for one or more schools have not been corrected within the time allowed under subsection (b)(3)(B) of this Section.
- c) The recognition status of a district or a school may be changed by the State Board of Education at any time to reflect information confirmed during compliance monitoring or by any other means.
 - d) The superintendent of a district that is recognized pending further review or in which one or more schools are recognized pending further review may, within 30 days after receipt of notification to this effect, request a conference at which representatives of the district will have an opportunity to discuss compliance issues with representatives of the State Board of Education.

- e) The State Superintendent shall schedule a conference with the superintendent of a district that is placed on probation, or in which one or more schools are placed on probation, at which representatives of the district will discuss compliance issues with representatives of the State Board of Education. Within 60 days following this conference, the school district shall submit to the regional superintendent of schools and the State Superintendent of Education a corrective plan that conforms to the requirements of subsection (f) of this Section.
 - 1) If the plan is required to relate to areas of noncompliance at the district level, the plan shall be signed by the secretary of the local board of education as evidence that the board adopted a resolution authorizing its submission.
 - 2) If the plan is required to relate to areas of noncompliance at one or more schools, the plan shall be signed by the district superintendent and each affected principal.
- f) The State Superintendent of Education shall respond to the submission of a plan within 15 days after receiving it and may consult with the regional superintendent of schools to determine the appropriateness of the actions proposed by the district to correct the cited deficiencies. The State Superintendent shall approve a plan if it:
 - 1) specifies steps to be taken by the district that are directly related to the area or areas of noncompliance cited;
 - 2) provides evidence that the district has the resources and the ability to take the steps described without giving rise to other issues of compliance that would lead to probationary status; and
 - 3) specifies a timeline for correction of the cited deficiencies that is demonstrably linked to the factors leading to noncompliance and is no longer than needed to correct the identified problems.
- g) If a district's plan is not approvable under subsection (f) of this Section, the State Superintendent shall notify the district to this effect. If no plan is submitted, or if no approvable plan is received within 60 days after the district's conference with the State Board, the status of the district, or of the affected school or schools, as applicable, shall be changed to "nonrecognized".
- h) If, at any time while a plan for corrective action is in effect, the State Superintendent determines that the agreed-upon actions are not being

implemented in accordance with the plan or the underlying areas of noncompliance are not being remedied, the status of the district, or of the affected school or schools, as applicable, shall be changed to “nonrecognized”.

- i) The superintendent of a district that is nonrecognized pursuant to this Section, or in which one or more schools are nonrecognized pursuant to this Section, may request a conference with representatives of the State Board of Education within 15 days after receipt of notification to this effect. (See Section 1.95 of this Part for procedures related to nonrecognition pursuant to Section 2-3.25f of the School Code [105 ILCS 5/2-3.25f].)
 - 1) If a conference is requested by a superintendent on behalf of a nonrecognized school or district and the areas of concern are not resolved, the State Superintendent shall furnish the school board with a Notice of Opportunity for Hearing. The school board may submit an appeal by adopted board resolution within 15 days after receipt of the notice. The appeal must identify the specific findings with which the district disagrees. The district will be given a hearing in accordance with the State Board’s rules for Contested Cases and Other Formal Hearings (23 Ill. Adm. Code 475). A final decision shall be rendered by the State Board of Education.
 - 2) If no conference is requested, the district shall be deemed not to intend to appeal the nonrecognition.
- j) Neither a district nor a school shall be nonrecognized under this Section without first having been placed on probation. A district that is nonrecognized, or in which one or more schools are nonrecognized, shall be subject to the provisions of Section 18-8.05(A)(3)(a) of the School Code [105 ILCS 5/18-8.05(A)(3)(a)].

(Source: Amended at 33 Ill. Reg. 15193, effective October 20, 2009)

Section 1.30 State Assessment

The State Superintendent of Education shall develop and administer assessment instruments and other procedures in accordance with Section 2-3.64 of the School Code [105 ILCS 5/2-3.64]. In addition, school districts shall collaborate with the State Superintendent in the design and implementation of special studies.

- a) Development and Participation
 - 1) Assessment instruments and procedures shall meet generally accepted standards of validity and reliability as stated in "Standards for Educational and Psychological Testing" (1999), published by the American Educational Research Association, 1230 17th St., N.W., Washington, D.C. 20036. (No later amendments to or editions of these standards are incorporated.)
 - 2) Districts shall participate in special studies, tryouts, and/or pilot testing of these assessment procedures and instruments when one or more schools in the district are selected to do so by the State Superintendent.
 - 3) A school shall generally be selected for participation in these special studies, tryouts, and/or pilot testing no more than once every four years, except that participation may be required twice every four years in the case of the Illinois Alternate Assessment.
 - 4) *All pupils enrolled in a public or State-operated elementary school, secondary school, or cooperative or joint agreement with a governing body or board of control, a charter school operating in compliance with the Charter Schools Law [105 ILCS 5/Art. 27A], a school operated by a regional office of education under Section 13A-3 of the School Code [105 ILCS 5/13A-3], or a public school administered by a local public agency or the Department of Human Services shall be required to participate in the State assessment, whether by taking the regular assessment, with or without accommodations, or by participating in an alternate form of the assessment (Sections 2-3.25a and 2-3.64 of the School Code).*
 - A) Students who are served in any locked facility that has a State-assigned RCDTS (region/county/district/type/school) code, students who attend public university laboratory schools under Section 18-8.05(K) of the School Code, and students beyond the age of compulsory attendance (other than students with IEPs) whose programs do not culminate in the issuance of regular high

school diplomas are not required to participate in the State assessment.

- B) It is the responsibility of each district or other affected entity to ensure that all students required to participate in the State assessment do so. See also Section 1.50 of this Part.
- 5) Each district or other affected entity shall ensure the availability of reasonable accommodations for participation in the State assessment by students with disabilities, as reflected in those students' IEPs or plans developed under Section 504 of the Rehabilitation Act of 1973 (29 USC 794), or limited English proficiency.
- b) Assessment Procedures
- 1) All assessment procedures and practices shall be based on fair testing practice, as described in "Code of Fair Testing Practices in Education" (2004), published by the Joint Committee on Testing Practices of the American Educational Research Association, American Psychological Association, and National Council on Measurement in Education, 750 First Avenue, N.E., Washington, D.C. 20002-4242. (No later amendments to or editions of this code are incorporated.)
- 2) Districts and other affected entities shall protect the security and confidentiality of all assessment questions and other materials that are considered part of the approved State assessment, including but not necessarily limited to test items, reading passages, charts, graphs, and tables.
- 3) Districts shall promptly report to the State Superintendent all complaints received by the district of testing irregularities. A district shall fully investigate the validity of any such complaint and shall report to the State Superintendent the results of its investigation.
- 4) Districts shall administer the Prairie State Achievement Examination (PSAE) or the Illinois Alternate Assessment (IAA), if applicable under subsection (d) of this Section, to students in grade 11. (See Section 2-3.64 of the School Code.) For the purpose of this subsection (b)(4), "grade 11" means the point in time when a student has earned the number of credits necessary for enrollment in grade 11, as determined by his or her school district in accordance with Sections 1.420(b) and 1.440 of this Part. A

district shall not promote a student to grade 12 status until that student has taken either the PSAE or IAA, as applicable.

c) Accommodations

Students who have been identified at the local level as having limited proficiency in English as provided in 23 Ill. Adm. Code 228.15, including students not enrolled in programs of bilingual education, may participate in an accommodated State assessment, subject to the limitations set forth in Section 2-3.64 of the School Code. A student with limited proficiency in English shall be afforded extra time for completion of the State assessment when, in the judgment of the student's teacher, extra time is necessary in order for the student's performance to reflect his or her level of achievement more accurately, provided that each test must be completed in one session. See also Section 1.60(b) of this Part.

d) Illinois Alternate Assessment

Students with the most significant cognitive disabilities whose IEPs identify the regular State assessment as inappropriate for them even with accommodations shall participate in the Illinois Alternate Assessment (IAA), based on alternate achievement standards, for all subjects tested. See also Section 1.60(c) of this Part.

e) Review and Verification of Information

Each school district and each charter school shall have an opportunity to review and, if necessary, correct the preliminary data generated from the administration of the State assessment, including information about the participating students as well as the scores achieved.

1) Within 10 days after the preliminary data for the Illinois Standards Achievement Test (ISAT) and the IAA are made available and within five days after preliminary data for the PSAE are made available, each district or charter school shall make any necessary corrections to its demographic and score data and then use a means prescribed by the State Board to indicate either:

- A) that both its demographic and preliminary data are correct; or
- B) that it is requesting rescoring of some or all portions of the assessment for specific students.

- 2) When districts request rescoring, staff of the State Board and/or its contractor shall have an additional period of 21 days within which to work with the affected district or charter school to make any resulting corrections.
 - 3) At the end of the 21-day period discussed in subsection (e)(2) of this Section, all districts' and charter schools' data shall stand as the basis for the applicable school report cards and determination of status. Any inaccuracies that are believed to persist at that time shall be subject to the appeal procedure set forth in Section 1.95 of this Part.
- f) Reports of State Assessment Results
- 1) Following verification of the data under subsection (e) of this Section, the State Board shall send each school and district a report containing final information from the results of each administration of the State assessment.
 - A) The scores of students who are served by cooperatives or joint agreements, in Alternative Learning Opportunities Programs established under Article 13B of the School Code, by regional offices of education under Section 13A-3 of the School Code, by local agencies, or in schools operated by the Department of Human Services, scores of students who are served in any other program or school not operated by a school district and who are scheduled to receive regular high school diplomas, all scores of students who are wards of the State, and all scores of students who have IEPs, shall be reported to the students' respective districts of residence and to the schools within those districts that they would otherwise attend.
 - B) The scores of students enrolled in charter schools shall be reported to the chief administrator of the charter school and to any school district serving as a chartering entity for the charter school.
 - 2) Each report shall include, as applicable to the receiving entity:
 - A) results for each student to whom the State assessment was administered (excluding any scores deemed by the State Board to be invalid due to testing irregularities); and

- B) summary data for the school and/or district and the State, including but not limited to raw scores, scale scores, comparison scores, including national comparisons when available, and distributions of students' scores among the applicable proficiency classifications (see subsection (h) of this Section).
- g) Each school district and each charter school shall receive notification from the State Board of Education as to the status of each affected school and the district based on the attainment or non-attainment of adequate yearly progress as reflected in the final data. These determinations shall be subject to the appeal process set forth in Section 1.95 of this Part.

h) Classification of Scores

Each score achieved by a student on a regular or alternate State assessment shall be classified among a set of performance levels, as reflected in score ranges that the State Board shall disseminate at the time of testing, for the purpose of identifying scores that "demonstrate proficiency".

- 1) Each score achieved by a student on a regular State assessment (i.e., the ISAT or the PSAE) shall be classified as "academic warning", "below standards", "meets standards", or "exceeds standards". Among these scores, those identified as either meeting or exceeding standards shall be considered as demonstrating proficiency.
- 2) Each score achieved by a student on the IAA shall be classified as "entry", "foundational", "satisfactory", or "mastery". Among these scores, those identified as "satisfactory" or "mastery" shall be considered as demonstrating proficiency.

i) Scores Relevant to Adequate Yearly Progress

For purposes of determining whether a district or a school has made adequate yearly progress, scores achieved on a State assessment in reading or mathematics shall be "relevant scores". For schools without grades higher than 2 (that is, for schools where no State assessment is administered), scores achieved by students in Grade 2 on the Terra Nova examination (CTB McGraw-Hill, 20 Ryan Ranch Road, Monterey CA 93940 (2001)) shall also be considered "relevant scores" for school years from 2002-03 through 2005-06. Beginning with the 2006-07 school year, the determination as to whether a school in this group has made adequate yearly progress shall be the determination applicable to the school where the largest number of students go on into the third grade.

(Source: Amended at 35 Ill. Reg. 2230, effective January 20, 2011)

Section 1.40 Adequate Yearly Progress

School districts and individual schools shall be required to make “adequate yearly progress” in order to maintain academic standing that will avoid their placement into academic early warning or academic watch status as set forth in Section 1.80 of this Part. In order to make adequate yearly progress for a particular school year, an affected entity shall be required to attain at least the required percentage of scores demonstrating proficiency in both reading and mathematics, for each of the subgroups of students served by that entity and for the entity as a whole, based on a participation rate in the required assessments of at least 95 percent for each subgroup and for the entity as a whole, as well as attaining the targeted rate for the additional indicator that is applicable to that entity, for each subgroup served and for the entity as a whole. See Sections 1.50, 1.60, and 1.70 of this Part. However, special provisions shall apply to the calculation of adequate yearly progress for school districts that serve students at more than one grade span (i.e., elementary school (Grades 3-5), middle school (Grades 6-8), and high school (Grades 9-12)). Such a district shall fail to make adequate yearly progress only if data for each of the grade spans served indicate that one or more applicable targets were not met by the students at that grade span.

(Source: Section repealed at 22 Ill. Reg. 22233, effective December 8, 1998; new Section adopted at 29 Ill. Reg. 19891, effective November 23, 2005)

Section 1.50 Calculation of Participation Rate

- a) A district's or a school's adequate yearly progress for a particular year is generally contingent upon participation in the State assessment by at least 95 percent of the district's or the school's students, both in the aggregate and within each subgroup represented. However, a district or a school that has not achieved 95 percent participation in a given year shall be considered to have had a participation rate sufficient for adequate yearly progress if, for each affected subgroup or the entity as a whole, as applicable:
- 1) the average of the participation rate for the year in question and the participation rate for the immediately preceding year is at least 95%; or
 - 2) the average of the participation rate for the year in question and the participation rates for the two immediately preceding years is at least 95%.
- b) Students who, at the time of administration of the State assessment, are participating in residential programs that provide psychological treatment or treatment for drug or alcohol abuse, are jailed or in a locked-down facility, are residing in or attending facilities out of state or out of country, or are hospitalized because of medical emergencies or procedures shall not be required to participate in the State assessment. For students who are homebound, districts shall examine the circumstances of each case individually to determine whether administration of the State assessment is feasible and appropriate. A student not tested pursuant to this subsection (b) may be excluded from the enrollment counts of the affected schools and districts for purposes of calculating the participation rate.

Section 1.60 Subgroups of Students; Inclusion of Relevant Scores

A student's scores shall count among those for his or her school or district, as applicable, for a given year only if he or she was enrolled continuously in the district on or before May 1 of the previous academic year through State testing the following spring. Students who feed into another school within the same district during the summer based upon the district's progression of students among attendance centers based on grade level shall have their scores counted for the school and district. Any student who is continuously enrolled within the district but, for reasons not mandated by the district, changes to a new school within the district after May 1 will be counted at the district level but not at the school level. Nothing in this Section is intended to exempt a student from the requirement for participation in the State assessment, except as provided in subsection (b)(1) of this Section.

- a) Relevant scores shall be disaggregated by content area for any subgroup identified in this subsection (a) whose membership meets the minimum subgroup size. For purposes of this Section 1.60, "minimum subgroup size" shall mean 45 students across all the grades tested in the school or district, as applicable. Except as provided in subsection (b) of this Section, each student's scores shall be counted in each of the subgroups to which he or she belongs.
 - 1) Students with disabilities, i.e., students who have Individualized Education Programs (IEPs);
 - 2) For school years through 2009-10, racial/ethnic groups:
 - A) White,
 - B) Black,
 - C) Hispanic,
 - D) American Indian or Alaskan Native,
 - E) Asian/Pacific Islander,
 - F) Multiracial/ethnic;
 - 3) For school year 2010-11 and beyond, racial/ethnic groups:
 - A) Hispanic or Latino of any race,
 - B) For students who are not Hispanic or Latino:

- i) American Indian or Alaska Native,
 - ii) Asian,
 - iii) Black or African American,
 - iv) Native Hawaiian or Other Pacific Islander,
 - v) White,
 - vi) Two or more races;
- 4) Students who have been identified at the local level as having limited proficiency in English as provided in 23 Ill. Adm. Code 228.15; and/or
 - 5) Students who are eligible for free or reduced-price meals under the Child Nutrition Act of 1966 (42 USC 1771 et seq.) or the National School Lunch Act (42 USC 1751 et seq.).
- b) Special provisions shall apply to the treatment of scores achieved by students of limited English proficiency in certain circumstances.
- 1) An Illinois student who is in his or her first year of enrollment in school in the United States and who is identified as having limited proficiency in English may elect to participate in the State assessment in reading. Any such student who elects not to participate shall nevertheless be treated as having participated for purposes of calculating the participation rate.
 - 2) The score achieved by a student who elects to participate in the regular State assessment in reading under subsection (b)(1) of this Section shall be counted for purposes of calculating the participation rate but not for purposes of calculating performance.
 - 3) An Illinois student who is in his or her first year of enrollment in school in the United States and who is identified as having limited proficiency in English shall be required to participate in the State assessment in mathematics. The score achieved by such a student shall be counted for purposes of calculating the participation rate but not for purposes of calculating performance.

- 4) A student who has previously been identified as having limited proficiency in English and whose scores have been attributed to that subgroup shall continue to have his or her scores attributed to that subgroup for the first two years after the last year when he or she was considered to have limited English proficiency. However, districts and schools shall not be required to count students to whom this subsection (b)(4) applies as part of the subgroup with limited English proficiency for purposes of determining whether the minimum subgroup size exists.
- c) All relevant scores of a district's students with disabilities who participate in the alternate form of the State assessment shall be included in the district's calculations for purposes of determining whether adequate yearly progress has been made.
- 1) The number of scores earned by students who participate in the alternate form of the State assessment that may be counted as demonstrating proficiency in a content area shall be no more than 1 percent of all scores achieved by the district's students in that subject. (See the regulations of the U.S. Department of Education at 34 CFR 200.6.)
 - 2) Except as provided in subsection (c)(3) of this Section, for purposes of calculating adequate yearly progress at the district level, each score that demonstrates proficiency but is in excess of the 1 percent maximum set forth in subsection (c)(1) of this Section shall be counted as not demonstrating proficiency and shall be included as such in the calculations for each subgroup of which the student is a member.
 - 3) A district may apply to the State Superintendent of Education for a one-year exception to the 1 percent maximum set forth in subsection (c)(1) of this Section, which may be renewed for one or more subsequent years if warranted. Using a format established by the State Superintendent, the district shall display information demonstrating that the prevalence of students for whom the alternate assessment is appropriate exceeds 1 percent of the total population. The district shall also supply a narrative explaining the disproportionate representation of such students in its population. The State Superintendent of Education shall approve a district's request for an exception if the district superintendent provides assurances that the district meets all the requirements of 34 CFR 200.6 and if the information supplied by the district demonstrates that:
 - A) families of students with the most significant cognitive disabilities have been attracted to live in the district by the availability of

- educational, health, or community services that respond to their needs; or
- B) the district's student population is so small that the presence of even a small number of students with the most significant cognitive disabilities causes the district to exceed the 1 percent threshold (e.g., in a population of 50 students, one student represents 2 percent); or
 - C) other circumstances exist such that the overrepresentation of students with the most significant cognitive disabilities is outside the control of the district, i.e., the overrepresentation is not a result of inappropriate decision-making as to the form of the State assessment that should be used for particular students.
- 4) When scores that demonstrate proficiency and were achieved by students on the IAA make up more than 1 percent of a district's scores in either reading or mathematics, and the district has not received approval for an exception to the 1 percent maximum pursuant to subsection (c)(3) of this Section, the district shall be required to identify the "proficient" scores on the IAA that will be counted as not demonstrating proficiency for purposes of calculating adequate yearly progress (AYP). In making this determination, a district may choose to identify:
- A) scores of students who belong to the fewest subgroups;
 - B) scores of students who belong to the largest subgroups;
 - C) scores of students who belong to the smallest subgroups;
 - D) scores of students who belong to the subgroups whose performance is farthest above the target applicable to the year in question; or
 - E) scores of students who belong to the subgroups whose performance is farthest below the target applicable to the year in question.
- 5) The State Superintendent of Education shall notify each district that is affected by the requirement to identify excess "proficient" scores on the IAA. The deadline set by the State Superintendent shall allow at least five business days for districts' responses. For any district that does not submit

the requested information on this selection within the time allowed, the State Superintendent shall identify the scores that will be considered as not demonstrating proficiency for this purpose.

- d) Targets for scores demonstrating proficiency
- 1) In each subject and for each subgroup of students, the percentage of scores demonstrating proficiency that is required for AYP shall increase from the original baseline of 40 percent for the 2002-03 school year according to the following schedule:
 - A) For 2003-04, 40 percent;
 - B) For 2004-05 and for 2005-06, 47.5 percent;
 - C) For 2006-07, 55 percent;
 - D) For 2007-08, 62.5 percent;
 - E) For 2008-09, 70 percent;
 - F) For 2009-10, 77.5 percent;
 - G) For 2010-11, 85 percent;
 - H) For 2011-12 and for 2012-13, 92.5 percent;
 - I) For 2013-14, 100 percent.
 - 2) In order to avoid penalizing schools and districts for the decision bias that is associated with a minimum subgroup size, a 95 percent “confidence interval” shall be applied to subgroups’ data. (A confidence interval is a mathematical approach designed to compensate for the unreliability of data derived from consideration of small groups.)

- e) “Safe Harbor”

A school or a district in which one or more subgroups fail to achieve the required academic target for a particular year may nevertheless be considered as having made AYP for that year. Each subgroup in question must have attained the minimum subgroup size in the preceding year and, for each such subgroup, there must have been a decrease of at least ten percent in the proportion of scores that

do not demonstrate proficiency in comparison to that subgroup's scores for the preceding year. In addition, if the school is a high school, the relevant subgroup's graduation rate must at least equal the target rate for that year, and, if the school is an elementary or a middle school, the relevant subgroup's attendance rate must at least equal the target rate for that year (see Section 1.70 of this Part). This "safe harbor" method for calculating AYP shall apply only to subgroups within schools or districts; it shall not be used for the aggregate scores of a school or a district as a whole.

Section 1.70 Additional Indicators for Adequate Yearly Progress

The indicators discussed in this Section shall apply to all subgroups represented in a school or district as well as to each school or district in the aggregate.

- a) The graduation rate that is required for adequate yearly progress (AYP) in high schools shall increase from the original baseline of 65 percent for the 2002-03 school year according to the following schedule:
 - 1) For 2003-04, 66 percent;
 - 2) For 2004-05, 67 percent;
 - 3) For 2005-06, 69 percent;
 - 4) For 2006-07, 72 percent;
 - 5) For 2007-08, 75 percent;
 - 6) For 2008-09, 78 percent;
 - 7) For 2009-10, 80 percent;
 - 8) For 2010-11, 82 percent;
 - 9) For 2011-12, 84 percent;
 - 10) For 2012-13 and for 2013-14, 85 percent.

- b) The attendance rate that is required for AYP in elementary or middle schools shall increase from the original baseline of 88 percent for the 2002-03 school year according to the following schedule:
 - 1) For 2003-04, for 2004-05, and for 2005-06, 89 percent;
 - 2) For 2006-07, for 2007-08, and for 2008-09, 90 percent;
 - 3) For 2009-10, for 2010-11, and for 2011-12, 91 percent;
 - 4) For 2012-13 and for 2013-14, 92 percent.

- c) A district that includes both high schools and elementary or middle schools shall be required to reach both the targeted graduation rate among its high school students and the targeted attendance rate among its elementary or middle school students in order to achieve AYP for any given year.

Section 1.75 Student Information System

- a) Each school district shall participate in the Student Information System (SIS) established by the State Board of Education by entering data on the students served, their characteristics, their particular needs, the programs in which they participate, and their academic achievement to the Board in a format specified by the State Superintendent and according to the timelines applicable to the system.
- b) In accordance with Section 20 of the P-20 Longitudinal Education Data System Act, any nonpublic school that is recognized under 23 Ill. Adm. Code 425 *may elect to participate in the longitudinal data system by disclosing data to the State Board for one or more of the purposes of the Act.* [105 ILCS 13/20]
 - 1) A nonpublic school wishing to participate in the SIS shall notify the State Superintendent of Education no later than the start of the school year in which participation will begin. Failure to meet the notification deadline shall delay participation until the following school year.
 - 2) Data submitted to the SIS shall be in a format and in accordance with timelines established by the State Superintendent.
 - 3) Representatives from participating nonpublic schools shall complete any training relative to the SIS that the State Superintendent may require.

Section 1.77 Educator Certification System

Each school district shall ensure that information on the qualifications of its professional and paraprofessional staff is recorded on the electronic data system maintained by the State Board of Education so that the State Board may complete federally required reports. A district that lacks the technological capacity to participate in this electronic system shall be given an opportunity to demonstrate to the State Superintendent that this is the case, and the State Superintendent shall make available an alternative means that the district shall use in transmitting the required information.

Section 1.80 Academic Early Warning and Watch Status

The movement of schools and districts that do not make adequate yearly progress (AYP) into academic early warning status and then into academic watch status shall be as specified in Section 2-3.25d of the School Code, except that the failure to make AYP for two consecutive annual calculations shall be based upon failure to attain the same applicable target, regardless of whether the same subgroup is involved in both calculations. Further, a school or district shall be removed from any “status designation” after two consecutive years’ calculations show that it has met the applicable criteria for AYP in both those years.

Section 1.85 School and District Improvement Plans; Restructuring Plans

Section 2-3.25d of the School Code requires each district to revise the school improvement plans of any of its schools that are placed on academic early warning or academic watch status and to revise the district's improvement plan if it is placed on academic early warning or academic watch status. Similarly, restructuring plans are required for schools that remain on academic watch status after a fifth annual calculation. As used in this Section, "NCLB" refers to Public Law 107-110, the No Child Left Behind Act of 2001 (20 USC 6301 et seq.).

- a) A revised school improvement plan shall be submitted to the local school board (and to the local school council in a district operating under Article 34 of the School Code) no later than three months after the district's receipt of notification regarding the school's status. During the 45-day period following its submission to the local board and prior to the board's final approval, each plan shall undergo a peer review process designed by the district.
 - 1) In school districts with a population of 500,000 or fewer, revised school improvement plans shall be required to cover the two school years following the assessment necessitating the plan and to:
 - A) incorporate strategies based on scientifically based research and an analysis of State and local assessment data and other information that will strengthen the core academic subjects in the school and address the specific academic areas in which the school's performance has been deficient (NCLB, Section 1116(b)(3)(A)(i));
 - B) include information about the extent to which all students in the grade levels chosen by the district pursuant to Section 2-3.63 of the School Code are achieving in the fundamental learning areas;
 - C) adopt policies and practices concerning the school's core academic subjects that have the greatest likelihood of ensuring that all subgroups enrolled in the school will meet the State's proficient level of achievement not later than the end of the 2013-14 school year, including:
 - i) specific, measurable steps to be taken,
 - ii) a timeline for these activities, and
 - iii) a budget for these activities (NCLB, Section 1116(b)(3)(A)(ii));

- D) include professional development activities for at least the staff providing services in the academic areas in which the school's performance has been deficient (NCLB, Section 1116(b)(3)(A)(iii));
 - E) incorporate a teacher mentoring program (NCLB, Section 1116(b)(3)(A)(x));
 - F) establish specific annual, measurable objectives for continuous and substantial progress by each subgroup of students enrolled in the school that will ensure that all such subgroups will make adequate yearly progress and meet the State's proficient level of achievement not later than the 2013-14 school year (NCLB, Section 1116(b)(3)(v));
 - G) describe how the school will provide written notice about the identification to parents of each student enrolled in each school, in a format and, to the extent practicable, in a language that the parents can understand (NCLB 1116(b)(3)(A)(vi));
 - H) specify the responsibilities of the school and the school board under the plan, including the internal and external technical assistance to be provided by the district, technical assistance requested of ISBE, and, if applicable, the district's fiscal responsibilities under Section 1120A of NCLB (NCLB, Section 1116(b)(3)(A)(vii));
 - I) include strategies for promoting effective parental involvement in the school (NCLB, Section 1116(b)(3)(A)(viii));
 - J) incorporate, as appropriate, activities before school, after school, during the summer, and during any extension of the school year (NCLB, Section 1116(b)(3)(A)(ix)); and
 - K) include a process for monitoring progress and revising the plan as needed.
- 2) In school districts operating under Article 34 of the School Code, school improvement plans shall comply with the requirements set forth in Section 34-2.4 of the School Code and, if applicable, the requirements set forth in Section 1116 of NCLB.

- 3) Each newly established school shall be required to have a school improvement plan in place by the beginning of its second year of operation. School improvement plans for new schools shall conform to the requirements of subsection (a)(1) or (a)(2) of this Section, as applicable.
- b) A new or revised district improvement plan shall be submitted to the local school board no later than three months after the district's receipt of notification regarding its status. The district improvement plan shall be required to cover the two school years following the assessment necessitating the plan and to:
- 1) incorporate scientifically based research strategies that strengthen the core academic program in schools served by the district (NCLB, Section 1116(c)(7)(A)(i));
 - 2) identify actions that have the greatest likelihood of improving the achievement of participating children in meeting the State's student academic achievement standards (NCLB, Section 1116(c)(7)(A)(ii));
 - 3) address the professional development needs of the instructional staff serving the district (NCLB, Section (c)(7)(A)(iii));
 - 4) include specific measurable achievement goals and targets for each subgroup of students, consistent with adequate yearly progress (NCLB, Section 1116(c)(7)(A)(iv));
 - 5) address the fundamental teaching and learning needs in the schools of the district and the specific academic problems of low-achieving students, including a determination of why the district's prior plan failed to bring about increased student academic achievement (NCLB, Section 1116(c)(7)(A)(v));
 - 6) incorporate, as appropriate, activities before school, after school, during the summer, and during any extension of the school year (NCLB, Section 1116(c)(7)(A)(vi));
 - 7) specify any requests to ISBE for technical assistance related to the plan and the district's fiscal responsibilities, if applicable, under Section 1120A of NCLB (NCLB, Section 1116(c)(7)(A)(vii));

- 8) include strategies for promoting effective parental involvement in the district's schools (NCLB, Section 1116(c)(7)(A)(viii)); and
 - 9) include a process for monitoring progress and revising the plan as needed.
- c) For purposes of compliance with Section 2-3.25d of the School Code [105 ILCS 5/2-3.25d], the requirement for collaboration with "outside experts" in the development of revised school and district improvement plans shall be met through the involvement of a school support team as defined in NCLB, Section 1117(a)(5), or by involving one or more other individuals who would qualify as members of a school support team pursuant to that definition.
 - d) Each revised school or district improvement plan shall be submitted to the State Superintendent on the business day next following the date of its approval by the local board, using the electronic format made available for this purpose. The State Superintendent shall verify that each plan contains each of the elements set forth in subsection (a) or subsection (b) of this Section, as applicable.
 - e) Section 2-3.25d of the School Code requires the development of a restructuring plan for a school that remains on academic watch status after a fifth annual calculation. Each required restructuring plan shall be approved by the local school board no later than six months after the district's receipt of notification regarding its status. Each school restructuring plan shall indicate that the district is undertaking one or more of the following actions in the affected school:
 - 1) reopening the school as a public charter school, consistent with Article 27A of the School Code [105 ILCS 5/Art. 27A];
 - 2) replacing all or most of the school staff, which may include the principal, who are relevant to the school's inability to make adequate yearly progress;
 - 3) entering into a contract with an entity, such as a private management company, with a demonstrated record of effectiveness, to operate the school as a public school;
 - 4) implementing any other major restructuring of the school's governance that makes fundamental reform in:
 - A) governance and management, and/or
 - B) financing and material resources, and/or

- C) staffing.
- f) Failure by a school district to develop, submit, revise, or implement its school and district improvement plans or school restructuring plans as required by Section 2-3.25d of the School Code shall affect the district's recognition status (see Section 1.20(b) of this Part).

Section 1.88 Additional Accountability Requirements for Districts Serving Students of Limited English Proficiency Under Title III

This Section implements section 3122 of the No Child Left Behind Act of 2001 (NCLB) (20 USC 6842), which requires that states establish “Annual Measurable Achievement Objectives” (AMAOs) for educational agencies that use funds provided under Title III of the Act to serve students of limited proficiency in English and hold those entities accountable for meeting those objectives. Further, this Section implements section 3113(b)(5) of NCLB (20 USC 6823), which requires states to hold local educational agencies and schools accountable for meeting all the objectives described in NCLB section 3122.

- a) The three distinct AMAOs address progress, proficiency, and adequate yearly progress (AYP), respectively, in connection with students taking the annual English language proficiency assessment prescribed by the State Board of Education in 23 Ill. Adm. Code 228 (Transitional Bilingual Education). These objectives shall apply at the district or cooperative level, as applicable, i.e., based on the test scores achieved by all the students served by each entity that receives Title III funding. In order to “meet AMAOs” for any given year, a district or cooperative must achieve all of the applicable objectives described in this subsection (a).
 - 1) “Progress” relates to the percentage of students whose scores on a given administration of the English language proficiency assessment increased in comparison to their previous scores by at least .5 of a level of attainment on any one of the four domains (listening, speaking, reading, and writing) or reflect the maximum attainable level in any one of the four domains. The scores of students tested but not being served in bilingual education programs shall not be counted for this purpose.
 - A) The Illinois annual progress target shall be 91 percent of students showing progress for school year 2009-10, which shall increase to 97 percent by school year 2015-16.
 - B) The percentage of a district’s or cooperative’s students who show progress shall increase by a minimum of 1 percent each year.
 - C) The provisions of this subsection (a)(1) shall apply provided that the number of students enrolled during the time in which the State-prescribed English language proficiency assessment is administered and being served in bilingual education programs is no fewer than 45 at the district or cooperative level, as applicable.

- D) A student's score shall be counted for this purpose only if he or she has participated in at least two consecutive administrations of the State-prescribed English language proficiency assessment, except as provided in subsections (a)(1)(D)(i) and (ii) of this Section.
- i) For a student who previously was enrolled in an Illinois school district and who re-enrolled in an Illinois school district during the current school year, the level of attainment for making progress shall be determined as prescribed in subsection (a)(1) of this Section using the student's current score on the State-prescribed English language proficiency assessment compared to the student's most recent, previous score achieved when he or she was enrolled in an Illinois district.
 - ii) For a student enrolled in an Illinois school district and who, for any reason other than not having been enrolled in an Illinois school district at the time of testing, does not have scores from two consecutive administrations of the State-prescribed English language proficiency assessment, the level of attainment for making progress shall be calculated by multiplying the number of years between the two most recent administrations of the State-prescribed English language proficiency assessment in which the student has participated by .5. For example, a student who took the test in school year 2009-10 and school year 2007-08 must increase his or her score by 1.0 of a level of attainment in any of the four domains in order to be considered as making progress (.5 of a level of attainment \times 2 years = 1.0 of a level of attainment).
- 2) "Proficiency" relates to the percentage of students who attained the scores identified by the State Board of Education (ISBE) as demonstrating English language proficiency and eligibility to exit bilingual education. The scores of students tested but not being served in bilingual education programs shall not be counted for this purpose.
- A) The Illinois annual proficiency target shall be six percent of students attaining English proficiency for school year 2009-10, with the target increasing to 15 percent by school year 2015-16.

- B) The percentage of the district's or cooperative's students attaining proficiency shall increase by 1 or 2 percent each year. The State Superintendent shall inform districts and cooperatives annually of the percentage to be used.
 - C) The provisions of this subsection (a)(2) shall apply provided that the number of students enrolled during the time in which the State-prescribed English language proficiency assessment is administered and being served in bilingual education programs is no fewer than 45 at the district or cooperative level, as applicable.
- 3) "Adequate yearly progress" or "AYP" has the meaning given to that term in Section 1.40 of this Part, except that, for purposes of this Section, AYP is specific to the scores earned on the reading and mathematics portions of the State assessment by students with limited proficiency in English, to their participation in the State assessment, and to their attendance or graduation rate, as applicable. The AYP objective shall apply only when the number of students served is treated as a subgroup under Section 1.60(a) of this Part.
- b) In order to avoid penalizing districts and cooperatives for the decision bias that is associated with drawing inferences from a small distribution, a 95 percent "confidence interval" shall be applied to the data involved in each calculation discussed in subsection (a) of this Section. (A confidence interval is a mathematical approach designed to compensate for the unreliability of data derived from consideration of small groups.)
 - c) The scores of all students served by a cooperative shall be analyzed as one group for purposes of determining whether the cooperative has met AMAOs in a given year. When a district changes cooperative membership, the scores of its students from the most recently completed school year will be used to determine whether the new cooperative has met progress under subsection (a)(1) of this Section. The determination for a cooperative shall also apply to each of its member districts.
 - d) Section 3122(b) of NCLB requires entities funded under Title III that fail to reach AMAOs for two consecutive years to prepare improvement plans designed to ensure that the entities will meet those objectives in the future. Each entity that is subject to this requirement shall submit its plan no later than six months after it receives notification from ISBE of its failure to meet AMAOs for the second consecutive year. Should a district or cooperative elect not to apply for Title III funding in the subsequent year, it shall be required to submit an improvement plan

before it next applies, unless data on the performance of its students demonstrate that the entity met AMAOs in the most recent year preceding its new application for funding. ISBE shall not approve an application for Title III funds from an entity that is subject to this requirement until its plan has been submitted.

- e) When an entity funded under Title III has failed to reach AMAOs for four consecutive years, ISBE shall, as required by section 3122(b)(4) of NCLB:
 - 1) require the entity to modify its curriculum, program, and method of instruction; or
 - 2) make a determination regarding the entity's continued receipt of funds under Title III and require the entity to replace educational personnel relevant to the entity's failure to meet the achievement objectives.

- f) The sanctions chosen pursuant to subsection (e) of this Section shall be identified based upon ISBE's analysis of the factors that prevented the entity from attaining the AMAOs, including those factors presented in the improvement plan submitted in accordance with subsection (d) of this Section. In particular, ISBE shall deny continued Title III funding to an entity that:
 - 1) fails or refuses to serve students according to relevant legal and/or regulatory requirements; or
 - 2) prolongs or repeats instances of noncompliance to a degree that indicates an intention not to comply with relevant requirements.

Section 1.90 System of Rewards and Recognition – The Illinois Honor Roll

The State Board of Education shall recognize schools for academic performance in three separate categories as provided in this Section.

a) Criteria for Spotlight Schools

- 1) The school made adequate yearly progress in the two most recent school years;
- 2) At least 50 percent of the students enrolled in the school in the most recent school year were classified as low-income students;
- 3) At least 60 percent of the scores relevant to adequate yearly progress that were attained by the school's students in the most recent school year were classified as demonstrating proficiency (see Section 1.30(h) of this Part); and
- 4) At least 50 percent of the scores relevant to adequate yearly progress that were attained by the school's students in the two school years immediately prior to the most recent school year were classified as demonstrating proficiency.

b) Criteria for the Academic Improvement Award

The school made significant academic improvement by showing, with respect to its students' scores that are relevant to adequate yearly progress and were classified as demonstrating proficiency, either:

- 1) at least a 7.5 percent increase for the most recent school year when compared to the immediately preceding school year; or

Section 1.95 Appeals Procedure

Pursuant to Section 2-3.25m of the School Code [105 ILCS 5/2-3.25m], a school district may request an appeal of a school's or the district's status level, recognition level determined pursuant to Section 2-3.25f of the School Code, or corrective actions undertaken by ISBE pursuant to Section 2-3.25f of the School Code or the No Child Left Behind Act of 2001. An appeal may not be brought pursuant to Section 2-3.25m challenging the validity of any State or federal law or requesting relief that ISBE is without authority to provide.

- a) A district shall request such an appeal by sending a written request to the State Board of Education for consideration by the Appeals Advisory Committee. The district must submit its appeal within 30 days after receipt of notification from the State Board of the school's or district's status level, recognition level, or corrective action, or by September 1 of the calendar year in which the notification occurs, whichever occurs later. The appeal may not be based upon alleged inaccuracies in data in any State assessment other than the most recent State assessment, or any other cause known to the district during the prior year's period for appeals. Upon receipt of a request, State Board staff shall provide an opportunity for the district to meet with State Board staff (either in person or over the telephone) in an effort to resolve the issues raised in the request through informal means.
- b) If a district elects not to meet with State Board staff, or if the district wishes to proceed with the appeal upon conclusion of the informal resolution process, the State Board shall commence the appeals process set forth in this Section. The timeframes set forth for appeals shall be tolled during the pendency of the informal resolution process. Nothing contained in this Section shall preclude the State Board and the district from reaching agreement as to the resolution of an appeal at any time during the appeals process.
- c) After a determination of a review schedule by the Committee, the State Board will give written notice of the date, time, and place of the hearing to the school district not less than 21 days before the hearing date. The notice shall be sent by certified mail, return receipt requested.
- d) The school district may be represented by an attorney throughout the proceedings. The office of the General Counsel to the State Board will represent the State Board. Both the school district and the State Board will be afforded the opportunity to file written briefs before the hearing. The school district shall submit its brief to the following address: Illinois State Board of Education, Office of the General Counsel, 100 North First Street, Springfield, Illinois 62777-0001.

The State Board shall submit its brief to the district and shall provide both the district's and the State Board's briefs to each member of the Committee.

- 1) The school district's brief shall be due 7 days after the district's receipt of the notice of opportunity for hearing.
 - 2) The State Board's brief shall be due 14 days after the State Board's receipt of the district's brief or, if no brief is filed by the district, 14 days after the notice of opportunity for hearing is sent.
- e) After briefs have been submitted pursuant to subsection (d) of this Section, no party shall submit additional information to the Committee unless so requested by the Committee's chairperson. The State Board will provide a signed assurance to the Committee that any calculations at issue were double-checked.
- f) At the time its brief is filed, either the school district or the State Board may request an opportunity for oral argument before the Committee.
- 1) Each party will be given 30 minutes for argument, and the school district may reserve 10 of its 30 minutes for rebuttal. The Committee may ask questions during such argument.
 - 2) If neither party requests oral argument, the Committee may request that the parties make an oral presentation on the date scheduled for the hearing.
- g) If two or more districts request an appeal regarding the same question of policy, law, or fact, the State Board may consolidate those appeals if the agency determines that consolidation would secure economies of time and effort and promote uniformity of decision-making by the Committee. Consolidated appeals shall be handled as provided in this subsection (g).
- 1) Each district may submit its own brief, or any two or more of the districts whose appeals are consolidated may elect to write a joint brief.
 - 2) All districts whose appeals are consolidated will be given 40 minutes for argument, and the districts may reserve ten of their 40 minutes for rebuttal. The districts shall either select one or more representatives to argue on behalf of the districts or divide the time equally amongst all districts.
 - 3) The agency shall submit one brief in response to the question of policy, law, or fact subject to the consolidated appeal and shall have 30 minutes for argument.

- h) The chairman of the Committee will conduct the review proceeding and hearing. During the hearing, the Committee shall consider only those issues raised in the briefs or by oral argument of the parties. All hearings will be recorded. A majority of committee members shall constitute a quorum. Committee recommendations must be approved by a majority vote of a quorum. Each committee member shall recuse himself or herself when hearing an appeal from a district with which the member has a conflict of interest, e.g., employment by the district, having a close family member in attendance at a school in the district or employed by the district, service as a school board member, or other affiliation with the district. The Committee may adopt other procedures for its governance not inconsistent with this Part.
- i) Within 30 days after the hearing, the Committee shall submit a written recommendation for action to the State Superintendent of Education and shall state the reasons for its recommendation. All recommendations shall be based on an objective evaluation of the district's claims and a review of the State Board's data and calculations. The Committee may recommend that the State Superintendent affirm or reverse the decision of the State Board, in whole or in part.
- j) The State Superintendent shall thereafter make a recommendation for action to the State Board of Education. The State Board of Education shall make the final determination.

Section 1.240 Equal Opportunities for all Students

- a) All students within a school district must be provided equal opportunities in all education programs and services provided by the system (see Section 10-20.12 of the School Code).
- b) No school system may *exclude or segregate any pupil*, or discriminate against any pupil on the basis of *color, race, nationality, religion, sex, sexual orientation, ancestry, age, marital status, or physical or mental disability [775 ILCS 5/1-102(A)]*, gender identity, or *status of being homeless [105 ILCS 45/1-5 and 42 USC 11434a(2)]*. Further, no school system may deny access to its schools or programs to students who lack documentation of their immigration status or legal presence in the United States, and no school system may inquire about the immigration status of a student (*Plyler v. Doe*, 457 U.S. 202 (1982)). In order to comply with this subsection (b), the documents required by a school system as proof of residency for a student, when taken together, shall not result in a requirement for proof of legal presence, such as a Social Security number. That is, the permissible combinations of documents must be sufficiently variable to afford an opportunity for those who lack proof of legal presence or immigration status to meet the stated requirements. No school district shall impose requirements for enrollment more restrictive than those established under relevant Illinois and federal law. For example, no school system shall require court-ordered guardianship when an individual enrolling a student meets the legal custody requirements of Section 10-20.12b(a)(2)(iv) or (v) of the School Code [105 ILCS 5/10-20.12b(a)(2)(iv) or (v)], and each school system shall immediately enroll and serve homeless children without requiring the provision of any documentation, in accordance with the Illinois Education for Homeless Children Act [105 ILCS 45] and the McKinney-Vento Homeless Education Assistance Act [42 USC 11434].
- c) The board of education shall submit periodic reports as required by the State Board of Education detailing pupil attendance, faculty assignments, and actions taken and planned to prevent and eliminate segregation.

Section 1.242 Temporary Exclusion for Failure to Meet Minimum Academic or Attendance Standards

A parent or guardian who receives notice of a school board's intention to deny enrollment to a student for either of the reasons specified in Section 26-2(c) of the School Code [105 ILCS 5/26-2] may appeal the determination to exclude the student.

- a) Upon the request of the parent or guardian, the school board or a hearing officer appointed by the board shall hold a hearing to review the board's determination.
- b) The parent or guardian shall have the right to appear at the hearing and discuss the board's determination to exclude the student with the board or its hearing officer.
- c) If a hearing officer has been appointed by the board, he or she shall provide to the board a written summary of the evidence heard at the hearing.
- d) After the hearing, if held by the board, or after the board's receipt of the hearing officer's written summary, the board may take the action it finds appropriate.
- e) Any appeal requested by the parent or guardian must be heard and a final determination made under subsection (d) of this Section before the student may be denied enrollment under Section 26-2(c) of the School Code.

Section 1.245 Waiver of School Fees

This Section provides the rules required by Section 2-3.96 of the School Code under which each school district is required to adopt a written policy for the waiver of school fees as required by Sections 10-20.13 and 34-21.6 of the School Code [105 ILCS 5/10-20.13 and 34-21.6].

- a) For the purposes of this Section "school fees" or "fees" means any monetary charge collected by a public school or public school district from a student or the parents or guardian of a student as a prerequisite for the student's participation in any curricular or extracurricular program of the school or school district. A school or school district does not impose a "fee" when it requires that a student provide his or her own ordinary supplies or materials (e.g., pencil, paper, notebooks), which are necessary to participate in any curricular or extracurricular program.
 - 1) "School fees" include, but are not limited to, the following:
 - A) All charges for required textbooks and instructional materials.
 - B) All charges and deposits collected by a school for use of school property (e.g., locks, towels, laboratory equipment).
 - C) Charges for field trips made during school hours, or made after school hours if the field trip is a required or customary part of a class or extracurricular activity (e.g., annually scheduled trips to museums, concerts, places of business and industry or field trips related to instruction in social studies, the fine arts, career/vocational education or the sciences).
 - D) Charges or deposits for uniforms or equipment related to varsity and intramural sports, or to fine arts programs.
 - E) Charges for supplies required for a particular class (e.g., shop or home economics materials, laboratory or art supplies).
 - F) Graduation fees (e.g., caps, gowns).
 - G) School records fees.
 - H) School health services fees.

- I) Driver's education fees assessed pursuant to Section 27-24.2 of the School Code [105 ILCS 5/27-24.2].
- 2) "School fees" do not include:
 - A) Library fines and other charges made for the loss, misuse, or destruction of school property (e.g., musical instruments).
 - B) Charges for the purchase of class rings, yearbooks, pictures, diploma covers or similar items.
 - C) Charges for optional travel undertaken by a school club or group of students outside of school hours (e.g., a trip to Spain by the Spanish club or a senior class trip).
 - D) Charges for admission to school dances, athletic events or other social events.
 - E) Optional community service programs for which fees are charged (e.g., preschool, before- and after-school child care, recreation programs).
- b) School boards that do not charge school fees must adopt a policy so stating. Parents must be notified of this policy as provided in this Section.
- c) School boards that charge school fees must adopt a policy and procedures containing at least the following elements:
 - 1) Eligibility Criteria
 - A) Eligibility criteria must include a waiver of fees for all students who qualify for free lunches or breakfasts under the School Breakfast and Lunch Program Act [105 ILCS 125]. Students must meet the income requirements of the program but need not participate in order to receive a waiver of school fees.
 - B) Eligibility criteria must also include a description of other extenuating circumstances under which the district will grant a waiver of school fees. Examples include students who are eligible to receive reduced-price lunch or breakfast; very significant loss of income due to severe illness or injury in the family or unusual expenses such as fire, flood, or storm damage; or similar

emergency situations that the district determines to include in its policy.

2) Notification of parents

A) The district's policy for the waiver of school fees shall be communicated in writing to the parents of all students enrolling in the district for the first time. A fee waiver application form also may be included with this notice when it is sent to parents. The notification must be in English or the home language of the parents if it is needed to ensure their understanding of the district's policy (if translation of the notice is not feasible, the use of interpreters is permitted, e.g., other students or neighbors). The notice shall at least describe:

- i) the district's policy, including the criteria and other circumstances under which the district will waive school fees;
- ii) the fees subject to waiver under the district's policy;
- iii) the procedure to be used by parents in applying for a waiver of school fees, including the availability of forms that may be used to request a fee waiver and the documents whose use is required by the school district in verifying income as permitted under subsection (d) of this Section; and
- iv) the procedure to be used by parents in resolving disputes concerning the waiver of school fees.

B) The district's policy also shall provide that the first bill or notice of each school year sent to parents who owe fees shall state:

- i) the district waives fees for persons unable to afford them in accordance with its policy; and
- ii) the procedure for applying for a fee waiver, or the name, address and telephone number of the person to contact for information concerning a fee waiver.

3) Procedures for the resolution of disputes

- A) The district's policy must provide that if it denies a request for a fee waiver, then it shall mail a copy of its decision to the parents within 30 calendar days after receipt of the request. The decision shall state the reason for the denial and shall inform the parents of their right to appeal, including the process and timelines for that action. The denial notice shall also include a statement informing the parents that they may reapply for a waiver any time during the school year, if circumstances change.
- B) An appeal shall be decided within 30 calendar days after the receipt of the parents' request for an appeal. Parents shall have the right to meet with the person who will decide the appeal in order to explain why the fee waiver should be granted. The person who decides the appeal shall not be the person who initially denied the fee waiver or a subordinate of this person. If the appeal is denied, then the district shall mail a copy of its decision to the parents. The decision shall state the reason for the denial.
- C) No fee shall be collected from any parent who is seeking a fee waiver in accordance with the district's policy until the district has acted on the initial request or appeal (if any is made), and the parents have been notified of its decision.
- d) A school district may make reasonable requirements for verifying a family's income (e.g., payroll stubs, tax returns, evidence of receipt of food stamps or Temporary Assistance for Needy Families) in accordance with the restrictions set forth in Sections 10-20.13 and 34-21.6 of the School Code. If a student receiving a waiver of school fees is found to be no longer eligible during the school year, then the district shall charge the student a prorated amount based upon the number of school days remaining in the school year. The process for proration shall be set forth in the district's fee waiver policy adopted in accordance with subsection (c) of this Section.
- e) If the fee waiver policy and/or procedures are substantively amended, then parents of students enrolled in the district must be notified in writing within 30 calendar days following the adoption of the amendments.
- f) School records that identify individual students as applicants for or recipients of fee waivers are subject to the Illinois School Student Records Act [105 ILCS 10]. Information from such records is confidential and may be disclosed only as provided in the Act.

- g) *No discrimination or punishment of any kind, including the lowering of grades or exclusion from classes, may be exercised against a student whose parents or guardians are unable to purchase required textbooks or instructional materials or to pay required fees [105 ILCS 5/28-19.2(a)].*

Section 1.285 Requirements for the Use of Isolated Time Out and Physical Restraint

Isolated time out and physical restraint as defined in this Section shall be used only as means of maintaining discipline in schools (that is, as means of maintaining a safe and orderly environment for learning) and only to the extent that they are necessary to preserve the safety of students and others. Neither isolated time out nor physical restraint shall be used in administering discipline to individual students, i.e., as a form of punishment. Nothing in this Section or in Section 1.280 of this Part shall be construed as regulating the restriction of students' movement when that restriction is for a purpose other than the maintenance of an orderly environment (e.g., the appropriate use of safety belts in vehicles).

- a) "Isolated time out" means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student's egress is restricted. The use of isolated time out shall be subject to the following requirements.
 - 1) Any enclosure used for isolated time out shall:
 - A) have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being isolated but also any other individual who is required to accompany that student;
 - B) be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls (including walls far enough apart so as not to offer the student being isolated sufficient leverage for climbing); and
 - C) be designed to permit continuous visual monitoring of and communication with the student.
 - 2) If an enclosure used for isolated time out is fitted with a door, either a steel door or a wooden door of solid-core construction shall be used. If the door includes a viewing panel, the panel shall be unbreakable.
 - 3) An adult who is responsible for supervising the student shall remain within two feet of the enclosure.

- 4) The adult responsible for supervising the student must be able to see the student at all times. If a locking mechanism is used on the enclosure, the mechanism shall be constructed so that it will engage only when a key, handle, knob, or other similar device is being held in position by a person, unless the mechanism is an electrically or electronically controlled one that is automatically released when the building's fire alarm system is triggered. Upon release of the locking mechanism by the supervising adult, the door must be able to be opened readily.
- b) "Physical restraint" means holding a student or otherwise restricting his or her movements. "Physical restraint" as permitted pursuant to this Section includes only the use of specific, planned techniques (e.g., the "basket hold" and "team control").
- c) The requirements set forth in subsections (d) through (h) of this Section shall not apply to the actions described in this subsection (c) because, pursuant to Section 10-20.33 of the School Code [105 ILCS 5/10-20.33], "*restraint does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and designed to:*
 - 1) *prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property; or*
 - 2) *remove a disruptive student who is unwilling to leave the area voluntarily.*
- d) The use of physical restraint shall be subject to the following requirements.
 - 1) Pursuant to Section 10-20.33 of the School Code, physical restraint may only be employed when:
 - A) *the student poses a physical risk to himself, herself, or others,*
 - B) *there is no medical contraindication to its use, and*
 - C) *the staff applying the restraint have been trained in its safe application as specified in subsection (h)(2) of this Section.*
 - 2) Students shall not be subjected to physical restraint for using profanity or other verbal displays of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a means of or intent to carry out the threat.

- 3) Except as permitted by the administrative rules of another State agency operating or licensing a facility in which elementary or secondary educational services are provided (e.g., the Illinois Department of Corrections or the Illinois Department of Human Services), mechanical or chemical restraint (i.e., the use of any device other than personal physical force to restrict the limbs, head, or body) shall not be employed.
 - 4) Medically prescribed restraint procedures employed for the treatment of a physical disorder or for the immobilization of a person in connection with a medical or surgical procedure shall not be used as means of physical restraint for purposes of maintaining discipline.
 - 5) Any application of physical restraint shall take into consideration the safety and security of the student. Further, physical restraint shall not rely upon pain as an intentional method of control.
 - 6) In determining whether a student who is being physically restrained should be removed from the area where such restraint was initiated, the supervising adult(s) shall consider the potential for injury to the student, the student's need for privacy, and the educational and emotional well-being of other students in the vicinity.
 - 7) If physical restraint is imposed upon a student whose primary mode of communication is sign language or an augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless the supervising adult determines that such freedom appears likely to result in harm to the student or others.
- e) Time Limits
- 1) A student shall not be kept in isolated time out for more than 30 minutes after he or she ceases presenting the specific behavior for which isolated time out was imposed or any other behavior for which it would be an appropriate intervention.
 - 2) A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing physical harm to himself, herself, or others.
- f) Documentation and Evaluation

- 1) A written record of each episode of isolated time out or physical restraint shall be maintained in the student's temporary record. The official designated pursuant to Section 1.280(c)(3) of this Part shall also maintain a copy of each such record. Each such record shall include:
 - A) the student's name;
 - B) the date of the incident;
 - C) the beginning and ending times of the incident;
 - D) a description of any relevant events leading up to the incident;
 - E) a description of any interventions used prior to the implementation of isolated time out or physical restraint;
 - F) a description of the incident and/or student behavior that resulted in isolated time out or physical restraint;
 - G) a log of the student's behavior in isolated time out or during physical restraint, including a description of the restraint technique(s) used and any other interaction between the student and staff;
 - H) a description of any injuries (whether to students, staff, or others) or property damage;
 - I) a description of any planned approach to dealing with the student's behavior in the future;
 - J) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out or physical restraint;
 - K) the date on which parental notification took place as required by subsection (g) of this Section.
- 2) The school official designated pursuant to Section 1.280(c)(3) of this Part shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

- 3) The record described in subsection (f)(1) of this Section shall be completed by the beginning of the school day following the episode of isolated time out or physical restraint.
- 4) The requirements of this subsection (f)(4) shall apply whenever an episode of isolated time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.
 - A) A certified staff person knowledgeable about the use of isolated time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.
 - B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).
 - C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated pursuant to Section 1.280(c)(3) of this Part.
- 5) When a student has first experienced three instances of isolated time out or physical restraint, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedure(s) used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program or for special education.
 - A) The district or other entity serving the student shall invite the student's parent(s) or guardian(s) to participate in this review and shall provide ten days' notice of its date, time, and location.
 - B) The notification shall inform the parent(s) or guardian(s) that the student's potential need for special education or an alternative program will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents

- 1) A district whose policies on the maintenance of discipline include the use of isolated time out or physical restraint shall notify parents to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code [105 ILCS 5/10-20.14 and 14-8.05(c)].
- 2) Within 24 hours after any use of isolated time out or physical restraint, the school district or other entity serving the student shall send written notice of the incident to the student's parent(s), unless the parent has provided the district or other entity with a written waiver of this requirement for notification. Such notification shall include the student's name, the date of the incident, a description of the intervention used, and the name of a contact person with a telephone number to be called for further information.

h) Requirements for Training

1) Isolated Time Out

Each district, cooperative, or joint agreement whose policy permits the use of isolated time out shall provide orientation to its staff members covering at least the written procedure established pursuant to Section 1.280(c)(2) of this Part.

2) Physical Restraint

- A) Physical restraint as defined in this Section shall be applied only by individuals who have received systematic training that includes all the elements described in subsection (h)(2)(B) of this Section and who have received a certificate of completion or other written evidence of participation. An individual who applies physical restraint shall use only techniques in which he or she has received such training within the preceding two years, as indicated by written evidence of participation.
- B) Training with respect to physical restraint may be provided either by the employer or by an external entity and shall include, but need not be limited to:

- i) appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship-building, and the use of alternatives to restraint;
 - ii) a description and identification of dangerous behaviors on the part of students that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
 - iii) the simulated experience of administering and receiving a variety of physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;
 - iv) instruction regarding the effects of physical restraint on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
 - v) instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and
 - vi) demonstration by participants of proficiency in administering physical restraint.
- C) An individual may provide training to others in a particular method of physical restraint only if he or she has received written evidence of completing training in that technique that meets the requirements of subsection (h)(2)(B) of this Section within the preceding one-year period.

- 3) The identification of supportive services to be made available to truant or chronically truant students. These services shall include, but need not be limited to, parent conferences, student counseling, family counseling, and information about existing community services which are available to truant and chronically truant students and relevant to their needs.

Each school district shall develop an evaluation plan (the Plan) for the evaluation of all certified school district employees in contractual continued service. Where cooperative educational programs operate between or among school districts, or are operated by Regional Superintendents of Schools, pursuant to Sections 3-15.14, 10-22.31 and/or 10-22.31a of the School Code [105 ILCS 5/3-15.14, 10-22.31, and/or 10-22.31a], the Plan shall be developed by the administrative agent who is the fiscal and legal agent for the cooperative program, or the governing board, or the board of control of the entity. SUBPART D: THE INSTRUCTIONAL PROGRAM

Section 1.410 Determination of the Instructional Program

Subject to the requirements listed below, the instructional program of a school district shall be determined by the board of education with involvement of parents, students, the professional staff, and the local community. The basic curriculum shall include organized experiences which provide each student ample opportunity to achieve the goals for which the school system exists and which meet the minimum program defined by The School Code and the State Board of Education. It is recommended that activities, including student internships and observations of government in action, be a part of the instructional program where appropriate.

Section 1.420 Basic Standards

- a) Class schedules shall be maintained in the administrative office in each attendance center of a school district.
- b) Every school district shall have an organized plan for recording pupil progress and/or awarding credit, including credit for courses completed by correspondence, on line, or from other external sources, that can be disseminated to other schools within the State.
- c) Every school district shall:
 - 1) Provide curricula and staff inservice training to help eliminate unconstitutional and unlawful discrimination in our schools and society. School districts shall utilize the resources of the community in achieving the stated objective of elimination of discrimination and to enrich the instructional program.
 - 2) Include in its instructional program concepts designed to improve students' understanding of and their relationships with individuals and groups of different ages, sexes, races, national origins, religions, and socio-economic backgrounds.
- d) Boards shall adopt and implement a policy for the distribution of teaching assignments, including study hall and extra class duties and responsibilities.
- e) Every school system shall conduct supervisory and inservice programs for its professional staff. The staff shall be involved in planning, conducting, and evaluating supervisory and inservice programs.
- f) Sections 10-19, 18-8.05, 18-12, and 18-12.5 of the School Code [105 ILCS 5/10-19, 18-8.05, 18-12, and 18-12.5] establish certain requirements regarding the school year and the school day. School districts shall observe these requirements when preparing their calendars and when calculating average daily attendance for the purpose of claiming general State financial aid.
 - 1) Section 18-8.05(F)(2)(c) of the School Code provides that, with the approval of the State Superintendent of Education, four or more clock-hours of instruction may be counted as a day of attendance when the regional superintendent certifies that, due to a condition beyond the control of the district, the district has been forced to use multiple sessions. The State Superintendent's approval will be granted when the district

demonstrates that, due to a condition beyond the control of the district, its facilities are inadequate to house a program offering five clock-hours daily to all students.

- A) The district superintendent's request to the State Superintendent shall be accompanied by an assurance that the local school board has approved the plan for multiple sessions, including the date of the meeting at which this occurred, and evidence of the approval of the responsible regional superintendent.
 - B) Each request shall include a description of the circumstances that resulted in the need for multiple sessions; information on the buildings and grades affected; the intended beginning and ending dates for the multiple sessions; a plan for remedying the situation leading to the request; and a daily schedule showing that each student will be in class for at least four clock-hours.
 - C) Approval for multiple sessions shall be granted for the school year to which the request pertains. Each request for renewed approval shall conform to the requirements of subsections (f)(1)(A) and (B) of this Section.
 - D) Students who are in attendance for at least 150 minutes of school work but fewer than 240 minutes may be counted for a half day of attendance. Students in attendance for fewer than 150 minutes of school work shall not be counted for purposes of calculating average daily attendance.
- 2) Section 18-8.05(F)(2)(h) of the School Code allows for a determination under rules of the State Board regarding the necessity for a second year's attendance at kindergarten for certain students so they may be included in a district's calculation of average daily attendance. Districts may count such students when they determine through an assessment of their individual educational development that a second year of kindergarten is warranted.
 - 3) A school district shall be considered to have conducted a legal school day, which is eligible to be counted for General State Aid, when the following conditions are met during a work stoppage.

- A) Fifty percent or more of the district's students are in attendance, based on the average daily attendance during the most recent full month of attendance prior to the work stoppage.
 - B) Educational programs are available at all grade levels in the district, in accordance with the minimum standards set forth in this Part.
 - C) All teachers hold certificates that are registered with the Regional Superintendent for their county of employment. Other than substitute teachers, certification appropriate to the grade level and subject area(s) of instruction is held by all teachers.
- 4) Sections 18-12 and 18-12.5 of the School Code set forth requirements for a school district to claim General State Aid in certain circumstances when one or more, but not all, of the district's school buildings are closed either for a full or partial day. A school district shall certify the reasons for the closure in an electronic format specified by the State Superintendent within 30 days from the date of the incident. In addition, the certification submitted for reasons of a public health emergency under Section 18-12.5 of the School Code shall be accompanied by a signed statement from the local health department to the State Superintendent that includes:
- A) the name of the building that is being recommended for closure;
 - B) the specific public health emergency that warrants the closure; and
 - C) the anticipated building closure dates recommended by the health department.
- 5) Attendance for General State Aid Purposes
- A) For purposes of determining average daily attendance on the district's General State Aid claim, students in full-day kindergarten and first grade may be counted for a full day of attendance only when they are in attendance for four or more clock hours of school work; provided, however, that students in attendance for more than two clock hours of school work but less than four clock hours may be counted for a half day of attendance. Students in attendance for fewer than two hours of school work shall not be counted for purposes of calculating average daily attendance.

- B) For purposes of determining average daily attendance on the district's General State Aid claim, students enrolled full time in grades 2 through 12 may be counted for a full day of attendance only when they are in attendance for five or more clock hours of school work; provided, however, that students in attendance for more than two and one-half clock hours of school work but less than five clock hours may be counted for a half day of attendance. Students in attendance for fewer than two and one-half hours of school work shall not be counted for purposes of calculating average daily attendance.
 - C) For purposes of determining average daily attendance for General State Aid received under Sections 18-12 and 18-12.5 of the School Code, "immediately preceding school day" shall include school days in the previous school year in instances in which the building closure occurs before three or more days of instruction have been provided in the school year for which attendance is being counted.
 - D) For the purposes of determining average daily attendance for General State Aid under Section 10-29 of the School Code [105 ILCS 5/10-29], a school district operating a remote educational program shall document, and make available to the State Superintendent of Education or his or her designee upon request, a written or online record of instructional time for each student enrolled in the program that provides sufficient evidence of the student's active participation in the program (e.g., log in and log off process, electronic monitoring, adult supervision, two-way interaction between teacher and student, video cam).
- g) Each school board shall annually prepare a calendar for the school term, specifying the opening and closing dates and providing a minimum term of at least 185 days to ensure 176 days of actual pupil attendance, computable under Section 18-8.05 of the School Code (see Section 10-19 of the School Code).
 - h) Local boards of education shall establish and maintain kindergartens for the instruction of children (see Sections 10-20.19a and 10-22.18 of the School Code [105 ILCS 5/10-20.19a and 10-22.18]).
 - 1) School districts may establish a kindergarten of either half-day or full-day duration. If the district establishes a full-day kindergarten, it must also provide a half-day kindergarten for those students whose parents or guardians request a half-day program.

- 2) If a school district that establishes a full-day kindergarten also has 20 or more students whose parents request a half-day program, the district must schedule half-day classes, separate and apart from full-day classes, for those children. If there are fewer than 20 children whose parents request a half-day program, those students may be enrolled in either the morning or afternoon session of a full-day program provided that the following conditions are met.
 - A) Distinctive curriculum plans for the half-day and full-day kindergarten programs must be developed by the school district, made available to parents to assist the parents in selecting the appropriate program for their child, and maintained in district files.
 - B) A common core of developmental, readiness and academic activities must be made available to all kindergarten students in the district regardless of the amount of time they attend school.
 - C) All support services (e.g., health counseling and transportation) provided by the district must be equally available to full-day and half-day students.
- i) Career Education
 - 1) The educational system shall provide students with opportunities to prepare themselves for entry into the world of work.
 - 2) Every district shall initiate a Career Awareness and Exploration Program that should enable students to make more meaningful and informed career decisions. This program should be available at all grade levels.
- j) Co-Curricular Activities
 - 1) Programs for extra classroom activities shall provide opportunities for all students.
 - 2) The desires of the student body in the area of co-curricular activities shall be of critical importance. At all times, activities of this nature shall be carefully supervised by a school-approved sponsor.
- k) Consumer Education and Protection

- 1) A program in consumer education shall include at least the topics required by Section 27-12.1 of the School Code [105 ILCS 5/27-12.1].
 - 2) The superintendent of each unit or high school district shall maintain evidence showing that each student has received adequate instruction in consumer education prior to the completion of the 12th grade. Consumer education may be included in course content of other courses, or it may be taught as a separate required course.
 - 3) The minimal time allocation shall not be less than nine weeks or the equivalent for grades 9-12 and shall include installment purchasing, budgeting, comparison of prices and an understanding of the roles of consumers interacting with agriculture, business, trade unions, and government in formulating and achieving the goals of the mixed free enterprise system.
 - 4) Teachers instructing in consumer education courses shall hold certification valid for the grade levels taught and have completed at least three semester hours in consumer education courses.
- l) Conservation of Natural Resources
- Each district shall provide instruction on *current problems and needs in the conservation of natural resources, including, but not limited to, air pollution, water pollution, waste reduction and recycling, the effect of excessive use of pesticides, preservation of wilderness areas, forest management, protection of wildlife, and humane care of domestic animals* (Section 27-13.1 of the School Code [105 ILCS 5/27-13.1]).
- m) Every school district has the responsibility to prepare students for full citizenship. To this end each school district should encourage student discussion and communication in areas of local, State, national and international concern.
- n) Health Education
- 1) Each school system shall provide a program in compliance with the Critical Health Problems and Comprehensive Health Education Act [105 ILCS 110].
 - A) There is no specific time requirement for grades K-6; however, health education shall be a part of the formal regular instructional program at each grade level.

- B) The minimal time allocation shall not be less than one semester or equivalent during the middle or junior high experience.
 - C) The minimal time allocation shall not be less than one semester or equivalent during the secondary school experience.
 - D) If health education is offered in conjunction with another course on a “block of time” basis in a middle school, a junior high school, or a high school, instruction may be offered in any combination of the grade levels in the school, provided that the total time devoted to health education is the equivalent of one full semester’s work.
- 2) Nothing in this Section shall be construed as requiring or preventing the establishment of classes or courses in comprehensive sex education or family life education as authorized by Sections 27-9.1 and 27-9.2 of the School Code [105 ILCS 5/27-9.1 and 27-9.2].
- o) Library Media Programs

Each school district shall provide a program of library media services for the students in each of its schools. Each district’s program shall meet the requirements of this subsection (o).

1) General

The program shall include an organized collection of resources that circulate to students and staff in order to supplement classroom instruction, foster reading for pleasure, enhance information literacy, and support research, as appropriate to students of all abilities in the grade levels served. No later than the beginning of the 2014-15 school year, a district that relies solely upon the collection of a local public library shall maintain evidence that students receive instruction, direction, or assistance in locating and using resources that are applicable to these purposes from an individual who is qualified under Section 1.755 of this Part and who is acting on behalf of the school district.

2) Financial Resources

Each district’s annual budget shall include an identifiable allocation for resources and supplies for the program, except that a unit district serving fewer than 400 students or an elementary or high school district serving

fewer than 200 students may demonstrate that it is meeting its students' needs through alternate means that the district has determined are adequate in light of local circumstances.

3) Facilities

If there is no single location within a particular attendance center that is specifically devoted to a library media center, such as where classroom collections have been established instead, the district shall ensure that equitable access to library media resources is made available to students in all the grade levels served. If students' only access to library media resources is achieved by visiting a location outside their attendance center, the district shall maintain records demonstrating that all students' regular schedules include time for this purpose.

4) Staff

Nothing in this subsection (o)(4) shall be construed as prohibiting districts or schools from sharing the services of individuals qualified under Section 1.755 of this Part, and nothing in this subsection (o) shall be construed as permitting an individual who is not qualified as a library information specialist to assume that role. No later than the beginning of the 2009-10 school year, each district shall assign responsibility for overall direction of its program of library media services to an employee who holds an elementary, a secondary, a special K-12, a special preschool-age 21, an early childhood, or an administrative certificate. Except as otherwise provided in subsection (o)(4)(A) of this Section, the individual to whom this responsibility is assigned shall meet the requirements of Section 1.755 of this Part, and the individual to whom this responsibility is assigned shall not provide the services described in Section 1.755 of this Part unless he or she meets the requirements of that Section.

A) In the event that no employee of the district holds any of the qualifications enumerated in Section 1.755 of this Part, the individual to whom direction of the program is assigned shall be required to participate annually in professional development consisting of:

- i) undergraduate or graduate coursework in library science offered by a regionally accredited institution of higher education; or

- ii) one or more workshops, seminars, conferences, institutes, symposia, or other similar training events that are offered by the Illinois State Library, a regional library system, or another professional librarians' organization; or
 - iii) one or more "library academies" if these are made available by or at the direction of the State Superintendent of Education.
 - B) A district that is otherwise unable to fulfill the requirements of this subsection (o)(4) shall ensure that the overall direction of the library media program (e.g., selection and organization of materials, provision of instruction in information and technology literacy, structuring the work of library paraprofessionals) is accomplished with the advice of an individual who is qualified pursuant to Section 1.755 of this Part.
- p) Physical Education
 - 1) Appropriate activity related to physical education shall be required of all students each day unless otherwise permitted by Section 27-6 of the School Code [105 ILCS 5/27-6]. - 6) Pursuant to Section 27-6 of the School Code, a student who presents an appropriate excuse from his or her parent or guardian or from a person licensed under the Medical Practice Act of 1987 shall be excused from participation in physical education. Each school board shall honor excuses signed by persons licensed under the Medical Practice Act of 1987 and shall establish a policy defining the types of parental excuses it will deem “appropriate” for this purpose, which shall include, but need not be limited to, reliance upon religious prohibitions. A board shall, however, have no authority to honor parental excuses based upon students’ participation in athletic training, activities, or competitions conducted outside the auspices of the school district. For each type of excuse that will be considered “appropriate”, the school board shall identify in its policy any evidence or support it will require. For example, a board may require a signed statement from a member of the clergy corroborating the religious basis of a request.
- 7) In addition, pursuant to Section 27-6(b) of the School Code, each school board that chooses to excuse pupils enrolled in grades 9 through 12 from engaging in physical education courses under that subsection shall establish a policy to excuse pupils on an individual basis and shall have the policy on file in the local district office. The district shall maintain records showing that, in disposing of each request to be excused from physical education, the district applied the criteria set forth in Section 27-6 to the student's individual circumstances.

SUBPART E: SUPPORT SERVICES

Section 1.510 Transportation

- a) Section 29-3 of the School Code [105 ILCS 5/29-3] requires the school boards of certain school districts to provide free transportation to pupils as delineated in that Section. Districts that are not required to provide free transportation may do so at their option.
- b) Each district seeking State reimbursement for pupil transportation shall comply with the provisions of Article 29 of the School Code and 23 Ill. Adm. Code 120 (Pupil Transportation Reimbursement). In order to qualify for reimbursement, school districts not required to provide transportation pursuant to a specific Section of Article 29 that elect to do so must afford the same service to all eligible pupils. For example, if a district is not required to transport students under Section 29-3 of the School Code [105 ILCS 5/29-3] but elects to transport some students residing more than 1½ miles from their attendance centers, then the district must transport all students in that same situation in order to claim reimbursement for any transportation service.

- d) Each school district is required to conform to the equipment standards and regulations established by the Department of Transportation.
- e) Each local school board that provides transportation shall designate a person under its direct supervision to ensure adherence to all laws and regulations affecting safe pupil transportation.
- f) School bus routing is the responsibility of the local school board. School districts shall arrange school bus stops to maximize safety, so that buses will not have to back up, and so that crossing arms will not infringe upon pedestrian crosswalks or cross streets. School buses are not required to enter private property.
- g) Local school boards shall institute policies and practices that promote the safety and well-being of school bus passengers, including provisions that support Section 10-22.6(b) of the School Code [105 ILCS 5/10-22.6(b)]. Local school boards shall require that all school bus drivers who transport pupils have been trained as discussed in Section 1.515 of this Part. The requirements set forth in

subsections (h) through (n) of this Section shall serve as minimum statewide requirements for operating a school bus. Transportation for students who receive special education and related services shall be as set forth in the State Board's rules for Special Education (23 Ill. Adm. Code 226). Local school boards may adopt more stringent requirements, at their discretion.

- 3) The bus driver shall observe the requirements of the district's policy adopted pursuant to Section 12-816 of the Vehicle Code [625 ILCS 5/12-816] with respect to ensuring that *no passenger remains on the bus at the end of a route, a work shift, or the work day.*
- j) Loading and Unloading
- 1) When children are picked up and must cross a roadway, the driver shall beckon them to cross the road when it is safe to do so.
 - 2) The driver on a regular route shall not be expected to wait for a tardy student and may proceed on a timely route if the student is not in sight.
 - 3) At school, the bus shall be driven onto the school grounds to discharge pupils or they shall be otherwise discharged so they will not have to cross a street if at all possible. At all discharge points where it is necessary for pupils to cross a roadway, the driver shall direct students to a point at least ten feet in front of the bus on the shoulder of the roadway and shall direct them to remain there until a signal is given by the bus driver for the students to cross.
 - 4) A driver shall not allow a student to get off the bus at any place other than the student's designated discharge point unless permission is granted by the proper school official.
 - 5) If a loading zone is not visible to traffic approaching from either direction, the district shall notify the Illinois Department of Transportation and request a determination as to the need to erect appropriate signs.
- k) Permitted Occupants
- 1) The manufacturer's capacity for a bus shall not be exceeded.
 - 2) Only persons authorized by the school district shall be allowed to ride school buses. Except with the permission of school authorities, the driver shall transport no school children with animals. Any animal transported shall be properly confined at all times when it is on a school bus.

- 1) In case of an accident or breakdown while the bus is transporting students, the first consideration shall be whether it is safer to evacuate the students or to have them remain on the bus.
- 2) All accidents shall be reported immediately to the appropriate school officials.
- 3) A School Bus Accident Report shall be completed in a format prescribed by the State Superintendent of Education and shall be forwarded to the regional superintendent immediately after any accident.
- 4) In case of a death that occurs as a result of a school bus accident, the responsible district official shall immediately notify the regional superintendent by telephone.

m) Railroad Crossings

Each driver of a school bus shall stop at all railroad crossings except where protected by a human flagman or law enforcement officer or marked as having been exempted by the Illinois Commerce Commission pursuant to Section 11-1202 of the Illinois Vehicle Code [625 ILCS 5/11-1202].

- 1) The driver shall stop between 15 and 50 feet in front of the first rail. While stopped, the driver shall open the service door, listen and look in both directions for any approaching train. When the driver determines that no train is approaching, he or she shall close the door, then proceed completely across the grade crossing without changing gears.
- 2) A driver who has stopped at a railroad crossing that is protected only by flashing lights and who determines that no train is, in fact, approaching (i.e., a malfunction is apparent) may proceed despite the warning lights, provided that he or she has complied with the requirements of subsection (m)(1) of this Section.
- 3) The driver shall not use the alternately flashing warning signals or stop arm at railroad grade crossings.

n) School Bus Crossing Arm

- 1) A school bus driver shall use the school bus crossing arm whenever the bus stops to allow students to enter or leave the bus. The driver shall allow sufficient space for the full extension of the crossing arm without

infringing on other vehicles, other obstacles, the pedestrian crosswalk, or a cross street. However, a driver may omit using the crossing arm at school loading areas where school buses are parked bumper to bumper or when extending the crossing arm would impede pedestrians' crossing, extend into the adjacent cross street, or collide with another object or vehicle.

- 2) A school bus driver shall report to the affected school district any instance when the crossing arm cannot be used as required. School districts shall use this information in evaluating school bus routes and pickup and dropoff points. Districts shall retain these records in a manner consistent with their retention policies applicable to other records.
- 3) A school bus shall not be used if its crossing arm is found to be inoperable during the pre-trip inspection, or if the crossing arm has malfunctioned and has not yet been repaired.
- 4) If a crossing arm malfunctions while the school bus is carrying students, the driver shall note the stop where the malfunction first occurs and may complete the route if permitted to do so by local board policy.

Renewal shall be sought by the regional superintendent of the region where services will be provided, with the permission of the individuals in question and using a form supplied by the State Superintendent of Education. Renewal of certification shall be based on the criteria set forth in subsections (a)(1) through (a)(4) of this Section.
- b) The State Superintendent shall notify each regional superintendent of the certification status of all affected instructors in his or her region and of any deficiencies preventing the certification of any individual. The regional superintendent shall be responsible for notifying instructors of their status.

Section 1.630 Noncertificated Personnel

- a) Pursuant to Sections 10-22.34 and 34-18 of the School Code [105 ILCS 5/10-22.34 and 34-18], school boards may employ nonteaching personnel or use volunteer personnel for nonteaching duties not requiring instructional judgment or evaluation of pupils.
- b) Paraprofessionals; Teacher Aides
 - 1) School boards may further utilize volunteer noncertificated personnel or employ noncertificated personnel as paraprofessionals (or “teacher aides”) to assist in the instruction of pupils, so long as each noncertificated individual is under the immediate supervision of a teacher who holds a valid certificate and is directly engaged in teaching subject matter or conducting activities (see Sections 10-22.34 and 34-18 of the School Code). To “assist in the instruction of pupils”, i.e., to serve as a paraprofessional, means to support teachers through interactions with students that will help them master curricular content, such as by tutoring; or to assist with classroom management, such as by organizing instructional materials.
 - 2) Employment as a paraprofessional requires a statement of approval issued by the State Board of Education, in consultation with the State Teacher Certification Board, except that a paraprofessional first employed on or before June 30, 2005, in a program that serves students with disabilities shall be subject to this requirement as of July 1, 2007, and except that an individual who holds any certificate indicative of completion of at least a bachelor’s degree, or who holds a provisional vocational certificate, may serve as a paraprofessional without a statement of approval.
 - 3) Each paraprofessional shall be under the direct supervision and control of a fully certificated teacher when assisting with instruction, whether this occurs in classrooms, laboratories, shops, playgrounds, libraries, or other educational settings where instructional judgment requires the supervision of a fully certificated teacher. The certificated teacher shall be responsible for planning the activities to be conducted by the paraprofessional and for evaluating the pupils with whom the paraprofessional works. The certificated teacher shall be continuously aware of the paraprofessional’s activities, i.e., the teacher shall be responsible for controlling the paraprofessional’s activities and shall be able to modify them at any time.

- 4) Paraprofessionals shall not be utilized as substitutes for or replacement of certificated teachers, and they shall not have equivalent responsibilities. Certificated teachers shall exercise professional judgment when assigning duties to paraprofessionals and shall retain the responsibility for determining students' scholastic activities.
- 5) Each school district shall:
 - A) submit a list of all paraprofessionals it employs to the State Superintendent of Education with its annual application for recognition;
 - B) maintain a file for each paraprofessional that describes his or her functions and includes his or her statement of approval and evidence that he or she has met the relevant requirements of 23 Ill. Adm. Code 25.510; and
 - C) be responsible for ensuring that no individual is employed as a paraprofessional without a statement of approval, except as permitted under subsection (b)(2) of this Section, and that paraprofessionals are assigned only to tasks for which their approval is valid.
- c) School boards may designate noncertificated persons of good character to serve as supervisors, chaperones or sponsors, either on a voluntary or on a compensated basis, for school activities not connected with the academic program of the schools (see Section 10-22.34a of the School Code [105 ILCS 5/10-22.34a]).
- d) School boards may utilize noncertificated persons, under the direction of a certified teacher, for providing specialized instruction related to a course assigned to the certified teacher on a regular basis, not otherwise readily available in the immediate school environment, in the fields for which they are particularly qualified or skilled (see Section 10-22.34b of the School Code [105 ILCS 5/10-22.34b]).
- e) Noncertificated personnel in special education programs under contract to the local board of education, other than paraprofessionals, shall be governed by 23 Ill. Adm. Code 226 (Special Education). Also, beginning July 1, 2006, educational interpreters for persons who are deaf or hard of hearing shall be approved pursuant to 23 Ill. Adm. 25.550 (Approval of Educational Interpreters).

-
- f) In accordance with Section 10-22.34(d) of the School Code [105 ILCS 5/10-22.34(d)], school districts may utilize noncertificated persons who are completing their clinical experiences and/or student teaching.
- 1) A candidate participating in clinical experiences shall not be required to hold a statement of approval as a paraprofessional if:
 - A) the candidate is engaging in the clinical experience as part of an approved Illinois teacher preparation program in which he or she is enrolled;
 - B) when the candidate assists in instruction, he or she is under the immediate supervision of a teacher who holds a valid certificate and is directly engaged in teaching the subject matter or conducting other learning activities; and
 - C) the cooperating teacher constantly evaluates the candidate's activities and is able to control or modify them.
 - 2) Noncertificated personnel enrolled in a student teaching course at a college or university are not required to be under the constant supervision of a teacher, provided that their activity has the prior approval of the representative of the higher education institution, that teaching plans have been previously discussed with and approved by the supervising teacher, and the teaching is performed in accordance with the requirements of 23 Ill. Adm. Code 25.620 (Student Teaching) (see Section 10-22.34(d) of the School Code).
- g) In accordance with Section 10-22.34b of the School Code [105 ILCS 5/10-22.34b], school districts may, with the prior approval of the responsible regional superintendent of schools, utilize noncertified persons *to provide specialized instruction not otherwise readily available in the immediate school environment in the fields for which they are particularly qualified by reason of specialized knowledge or skill*. The regional superintendent shall approve an assignment of this type when:
- 1) the certified teacher under whose direction the instruction will be provided has specified in writing the material to be covered and the amount of time to be allotted for the specialized instruction;

- 2) the district superintendent has identified in writing the selected individual's professional competence or outstanding proficiency in the area of specialization in which instruction is to be provided;
- 3) the district superintendent has affirmed in writing that a district representative has determined the environment where instruction will be provided, if away from the school, to be safe and appropriate to the age of the students involved; and
- 4) the district superintendent has described the precise function to be served by the specialized instruction and any compensation to be paid to the selected individual.

 - 1) holds the applicable endorsement for the subject area (and, in the case of the provisional vocational certificate, has also completed the work experience required pursuant to subsection (c) of this Section); or
 - 2) met the requirements of Section 1.730, 1.735, or 1.736 of this Part, or their predecessor requirements, at a time when they were applicable to that assignment, as confirmed by the employing district's verification of the individual's qualifications; or

 - 4) meets the requirements of Section 1.745 of this Part, if applicable; or
 - 5) is assigned pursuant to authorization received under 23 Ill. Adm. Code 25.464 (Short-Term Authorization for Positions Otherwise Unfilled).
- b) Beginning July 1, 2004, the provisions of this Section shall replace those of Sections 1.730, 1.735, and 1.736 of this Part as one basis upon which school districts and other entities subject to this Part may assign individuals to teach specific subjects. The qualifications identified in this subsection (b) are not the same as those for the respective endorsements, nor are they intended to match the requirements for identification as a "highly qualified" teacher in any particular subject area. Each individual who is first assigned to a subject area based upon the qualifications delineated in this subsection (b) shall be subject to the requirement for acquiring an endorsement in the respective field within three years after the date of assignment, in accordance with 23 Ill. Adm. Code 25.100(l). For purposes of the applicability of this requirement, an individual shall be considered "first assigned" to any field in which he or she has not taught in Illinois prior to July 1, 2004.
 - 1) For agricultural education; visual or drama/theatre arts; business, marketing, and computer education; dance; English language arts; health education; health careers; family and consumer sciences; technology

education; mathematics; music; physical education; reading; biology; chemistry; earth and space science; environmental science; physics; economics; geography; history; political science; psychology; sociology and anthropology; and for library information specialists: 24 semester hours in the field.

Each individual first assigned to teach safety and driver education on or after February 1, 2012 shall be required to hold a certificate valid for the secondary grades and an endorsement received pursuant to 23 Ill. Adm. Code 25.100(n).

c) Additional Requirements for Career and Technical Education

- 1) Assignments at the “skill-level” (grades 11 and 12) in reimbursable career and technical education generally require 2,000 hours of work experience in the area to be taught or, for more than one area, a total of 2,000 hours with no fewer than 250 hours in each area taught. A district may, however, employ an individual who holds a secondary certificate with the appropriate career and technical education endorsement but who has not completed 2,000 hours of work experience in the occupational area to be taught, provided that the individual acquires this experience in paid employment outside the teaching profession within four years after the date of first assignment. The employing entity shall maintain records to substantiate this experience, which may include written statements from former supervisors who can be reached for verification or, in cases where supervisors are no longer available to verify the individual’s employment, affidavits by the applicant’s instructors describing the work experience.
- 2) A teacher who is eligible under this Section to provide skill-level instruction in a particular area shall also be eligible to serve as a coordinator of either a specific cooperative education program or interrelated cooperative education, provided that he or she has also completed six semester hours of coursework in the organization and administration of cooperative education.
